

## **Company Policy**

### **Quality, Environment and Occupational Health & Safety**

Hagaberg develops, manufactures, and markets attachments for forklifts and construction machinery related to lifting, loading, and material handling.

Our operations are managed in accordance with our established vision, business concept, and objectives to ensure that all applicable laws, regulations, and standards relating to quality, environmental management, and occupational health and safety are met or exceeded.

Our customers' current and future requirements and expectations are identified and integrated into our daily operations and corporate culture. This creates opportunities for mutual development and long-term success for the company, its customers, and its suppliers.

We continuously improve our operations and strengthen our capabilities through ongoing improvements in quality, environmental performance, occupational health and safety, and productivity. Within the environmental area, our primary focus is on reducing material consumption and optimizing transportation.
